

IMAGEPRINT R.E.D. for OSX

Complete Install

1. Confirm that you've received your License Code email, and have the information handy. You'll enter the license code number in Step 8 below. If you installed a trial version and are ready to license, skip down to Step 8.
2. Insert the silver dongle into any free USB port on your computer or a USB hub.
3. Double-click **ImagePrint_Installer.dmg**, then double-click the file **ImagePrint Installer.pkg** to begin the installation.

If you receive an "Unknown Developer" warning, right click (or control click) the installer icon instead of double-clicking it and then choose OPEN from the context menu that appears.

4. Read the License Agreement, check the box for "I Agree", then click **Install**.
5. When prompted, enter your computer password, then click **Continue**.
6. Click **Launch IPSetup**.
7. Click **Add Printer**, then click **Continue** in the next window that appears.
8. Copy and paste the license code number from the email you received during the Activation step. Click **Done**. Your ImagePrint R.E.D. driver will now be listed in the IPSetup window.
9. Close IPSetup by choosing **Quit** from the menu at the top of the screen.
10. Choose to **Quit** to exit the installer, or choose **Launch** to get started with ImagePrint R.E.D. right away.

Whenever you want to use R.E.D. you can start it by going to Applications > ImagePrint and double-clicking the IMAGEPRINT icon. You can also drag the IMAGEPRINT icon to your Macintosh Dock for faster access in the future.

RECOMMENDED

Before you make your first print, we suggest you read through "Making your first print with IMAGEPRINT R.E.D." located in your IMAGEPRINT folder.

Additional Documentation

The complete IMAGEPRINT manual is a valuable reference for getting the most out

of your software. You'll find a copy in the IMAGEPRINT folder (IMAGEPRINT Users Manual.pdf) or by choosing Manual from the IMAGEPRINT Help menu.
